Opportunity to Comment on the Northern Tongass Integrated Weed Management project

The Tongass National Forest, Admiralty National Monument, and Juneau, Hoonah, Sitka and Yakutat Ranger Districts Ranger Districts, have prepared an Environmental Assessment (EA) for the Northern Tongass Integrated Weed Management project. This EA analyzes the effects of eradicating, controlling or containing invasive and other non-native plants (weeds) on the five northern districts (Admiralty National Monument, and Juneau, Hoonah, Sitka and Yakutat Ranger Districts) of the Tongass National Forest. We propose to treat an estimated 88 acres per year using manual, mechanical, and chemical (herbicides) methods. The responsible officials for this project are the Sitka, Juneau, Yakutat, Hoonah, and Admiralty National Monument District Rangers, Perry Edwards, Brad Orr, Lee Benson, and Basia Trout, respectively.

The EA is available on-line at: <https://www.fs.usda.gov/project/?project=49999>. The EA is also available for review at the Juneau, Hoonah, Sitka and Yakutat Ranger District offices. Additional information regarding this action can be obtained from: Michelle Putz, Team Leader, at (907) 747-2708 or at mputz@fs.fed.us.
